WHY REPLACE WHEN YOU CAN  
RESTORE AT 1/2 THE COST?

832-243-1413 • strategicroofing.net

# Roof restoration is 1/2 the cost of total replacement... with no interruption to your business.

Roof restoration costs half as much as a total roof replacement. With minimal maintenance, the lifetime of your existing roof can be extended for the lifetime of your building. Fluid applied roof coating systems are designed to shield your existing roof from the harsh external conditions, which are common in coastal regions. The high performance coating systems we install are proven to repair and protect your existing roof with added durability against wind driven rain, leaks and persistent solar radiation.

Whether your roof is metal or flat, we can install a seamless fluid applied roof coating system that will repair your roof, extend its life expectancy and protect you from costly roof failures. Installation is quick and easy, with no disruption to your business, residents, tenants or guests.

With each restoration, we focus on proper installation and provide the continued maintenance care your roof will need to last for life. Restore your commercial roof with Strategic Roofing Solutions.

Fluid applied roof coatings allow the roof, details, base flashings and roof penetrations to all form one seamless membrane, creating leak-proof protection for your building.

ENERGY EFFICIENT COOL ROOF TECHNOLOGY WILL SAVE ON ENERGY BILLS

COATINGS ARE 100% TAX DEDUCTIBLE THE YEAR OF INSTALLATION

FAST, EASY, AND NON-DISRUPTIVE ON-SITE INSTALLATIONS

SEAMLESS MEMBRANE CURES AND PREVENTS LEAKS

LONG-TERM, EXTENDABLE WARRANTIES

## Energy savings you can see.

Solar reflective coatings can deflect 85% of the sun's heat, potentially lowering roof surface temperatures by up to 80°, saving you money in reduced interior cooling costs!

SURFACE TEMP  
BEFORE COATING

161°F

SURFACE TEMP  
AFTER COATING

96°F

**SCHEDULE A FREE  
ROOF INSPECTION TODAY**  
832-243-1413

Schedule a free roof inspection with us today. We'll inspect your roof for areas of risk and help you address minor issues before they become serious problems -- saving you money in the long run.

### PROTECTION FOR LIFE.

Each of our customizable restoration systems come with standard 10 year labor and material warranties, automatically extended to 15 years with the set-up of an annual maintenance inspection plan. One recoat within 6 months of warranty expiration will extend warranty coverage for an additional 10 years.
